John/Kurt – you should be aware of this as well.

Julieta – we can help with press guidance: Ashley and Vijay, can you take the lead?

I have a faxed, advance copy. The title says it all: United States of America - Below the Radar: Secret Flights to Torture and 'disappearance' Sample sentence, "Renditions involve multiple layers of human rights violations." It talks about "CIA front companies" and everything else you can imagine.

We will undoubtedly need press guidance early tomorrow. I do not have time to deal with this as I have back-to-back meeting on Gitmo issues. Who wants this?
